PROFILE

A passionate front-end web developer. Experienced in building modern, responsive, and user-friendly applications from the ground up. I combine strong technical skills with a unique ability for effective collaboration and meticulous attention to detail, honed through a background in technical translation.

PROJECTS EXPERIENCE

- **Social Media Web Platform** - FEBRUARY - APRIL 2023
  - Developed using PHP, CSS, JavaScript, jQuery, MySQL, and Bootstrap.
  - Designed and developed a responsive social media platform from scratch.
  - Managed user data and content with a MySQL database, focusing on efficient data handling.
  - focusing on user interaction, profile management, and content sharing.
  - Successfully completed and documented the project as a personal thesis.

- **Website for Learning Chinese** - APRIL - MAY 2022
  - Led a team of developers to create an educational website for learning Chinese.
  - Engineered the front end using React.
  - Styled the entire website with Bootstrap, ensuring a consistent and professional design.
  - Managed project planning and task delegation, ensuring a smooth development process.
  - Awarded Third Place in the 15th China College Students Computer Design Competition.

FREELANCER

- **Design of a Shopify Store** - APRIL - MAY 2024
  MalikaWearings/collection
  - Customized free templates into professional, fully-functional designs using Liquid templating language, enhancing client websites with a polished and tailored appearance.
